15 December 1981

MEMORANDUM FOR: Director of Central Intelligence

FROM :   
Chief, Economics Division, OGI

25X1

SUBJECT : CCCT High Technology Effort

1. Action Requested: None; background for your use at CCCT meeting, Wednesday, 16 December, 0845.

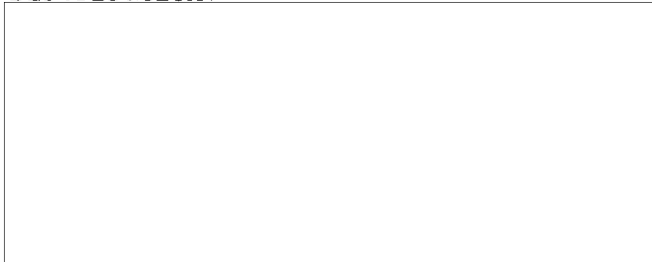

2. Background: Lionel Olmer has sent you an advance copy of a 14 December memorandum from Secretary Baldrige and an outline for a CCCT high technology study. (Tab A) He asked that you "comment on the way in which this study compliments your own efforts". This material is the product of an inter-agency group in which we are heavily involved. In case you wish to summarize CIA's longer-term research efforts in this area, I am attaching one page of talking points. (Tab B)

3. Dennis Kass has invited me to a meeting at 1730 today with George Keyworth and Lionel Olmer to discuss Lionel's presentation to the CCCT. If anything emerges from this conversation which you should be aware of, I will draft a note to you and give it to the Watch Office tonight.
